FLOOR-TO-WALL & NOMADIC
OVOID
LME & LMS

OVOID

LME & LMS

Design

The LMS and LME profiles of the OVOID range are particularly fit to realize floor-to-wall or nomadic furniture for the ready-to-wear branch. With its many grooves and large section the LMS profile offers the designer original solutions with a striking look, whereas the slimmer LME profile constitutes a simple and efficient system for centre-floor furniture.

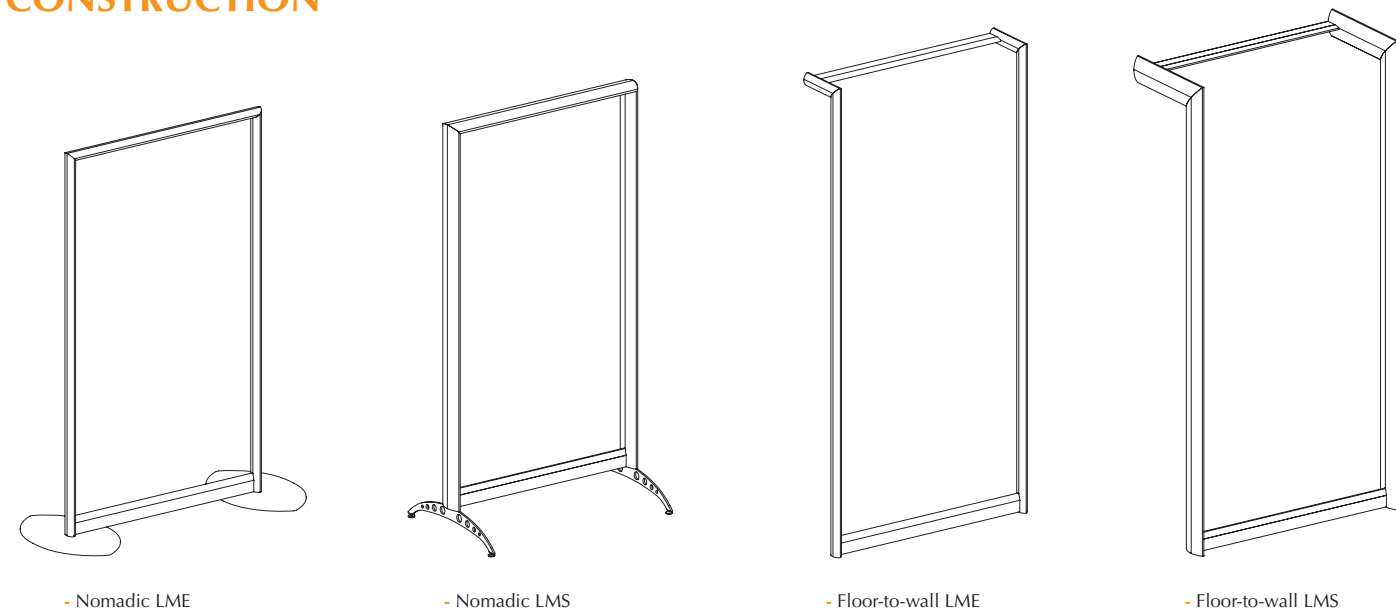

Material/Finish

The profiles are made of an aluminium alloy allowing (silver or black) anodized finish.

	Material	Finish
	Aluminium	AS: Satin silver anodized ANNO: Satin black anodized
	Steel	Grey lacquered Black lacquered
