SLOT CHANNEL  
**SQUARE  
CLASSIC 100**

# SQUARE CLASSIC 100

## Design

The SQUARE CLASSIC 100 range is particularly fit for the market of light standing products, such as pharmaceuticals, parapharmacy, perfumery, cosmetics or optics.

SQUARE CLASSIC 100 offers the professionals a great variety of modular applications with horizontal or inclined glass shelves. All types of fitting and merchandising are possible, thanks to a wide choice of slot channels with a compact 37-mm pitch. Various brackets lengths allow adapted display of any type of product, which leaves the interior designer total freedom.

## Material/Finish

Slot channels and brackets are made of an aluminium alloy allowing (silver or golden) anodized finish. Clear plastic saddles enhance the transparency effect of the glass shelf.

	Material	Finish
	Aluminium	AS: Satin silver anodized O4S: Satin gold no. 4 anodized
	Aluminium	AS: Satin silver anodized O4S: Satin gold no. 4 anodized
